

Lexell Blue, LLC is an experienced provider of enterprise-level data migration, implementation and project management solutions to government contractors and project based businesses worldwide. It was founded by three partners, Kelly Nighland, Jami Benson, and Susan Pucciano. In early 2014, Paul Whiteman joined as a Partner specializing in Project Manufacturing, Materials Management and Procurement.

All four partners were former consultants at Deltek, Inc. for many years where they acquired their expertise with the Deltek suite of products including: Costpoint, MES, GCS Premier and Time & Expense. They have extensive hands-on experience with hundreds of successful Costpoint implementations and data restructures. They provide an enhanced customer experience and are well versed in industry best practices. Lexell Blue is headquartered in the Northern Virginia area.

Lexell Blue partners with you on your implementation to provide project planning, configuration, data migration / conversion, reconciliation and testing services. Ensure your project's success by leveraging our experience to maximize efficiency and minimize risk.
